

UC IRVINE MEDICAL CENTER

Nitin N. Bhatia, MD

Neil F. Jones, MD

Ranjan Gupta, MD

At UC IRVINE'S DEPARTMENT OF ORTHOPAEDIC Surgery, we are committed to the consistent delivery of the finest orthopaedic clinical care with recognized national leadership in focused orthopaedic specialties. Our award-winning orthopaedic surgeons provide consultation and treatment for the full range of musculoskeletal problems relating to the care of patients with problems involving the hand, spine, foot and ankle, tumor, trauma, and joint replacement. Three of our faculty were recently recognized by *Super Doctors*[®]:

Dr. Nitin N. Bhatia is the chief of the Orthopaedic Spine Surgery Service and co-director of the Multidisciplinary Spine

Program at UC Irvine. His practice focuses on surgical and non-surgical treatment of spinal disorders including cervical spine and spinal trauma.

Dr. Neil F. Jones is the director at UC Irvine's Center for Hand & Upper Extremity Surgery with internationally-recognized expertise in reconstructive microsurgery and pediatric/congenital hand surgery.

Dr. Ranjan Gupta is the chair of the Department of Orthopaedic Surgery at UC Irvine with his practice focused on the care of patients with shoulder, elbow, and hand problems. He has particular clinical expertise in complex shoulder and brachial plexus/nerve injuries.
