A Legacy of Excellence

FOR MORE THAN FORTY YEARS THE PHYSICIANS OF Manhattan Orthopedic & Sports Medicine Group have served the New York community, providing patients with the utmost care, compassion and expertise. Our highly respected, board-certified physicians have been trained in all aspects of orthopedics. They have completed specialty fellowship training in sports medicine; arthroscopic and reconstructive knee, shoulder and hip surgery; total knee and hip replacement surgery; hand and upper extremity surgery; spine surgery; and minimally invasive surgery of all kinds. Our physicians are affiliated with Mount Sinai Hospital and hold faculty appointments at The Mount Sinai Hospital School of Medicine.

At Manhattan Orthopedic & Sports Medicine Group, there is no problem too small or too large. Our doctors are as comfortable treating a sprain as they are

performing complex surgery. We go out of our way to see patients promptly, often on a same-day basis. We work as a closely-knit team, matching each individual with the appropriate physician. Our support staff is admired for their friendly and efficient manner.
