

## WORLD-CLASS CANCER CARE AT A STATE-OF-THE-ART CENTER

The Monter Cancer Center, an integral part of the North Shore-LIJ Cancer Institute, is dedicated to providing patients with access to world-class oncologists, advanced treatment options and the most promising therapies in cancer care. Our team of expert medical oncologists, oncology nurses, and highly dedicated support staff work together to develop individualized treatment plans that provide the most effective and compassionate care for every patient.

The Monter Cancer Center includes oncology nurse navigators who coordinate patient care, a nationally recognized NCI-funded clinical trials program, a dedicated cancer genetic counseling program, a FACT accredited adult bone marrow transplant program, social work services, nutrition counseling, extensive patient support services including pain and supportive care programs and a patient education center. All care is delivered to patients and their families in private treatment areas conducive to healing. For more information, visit [northshorelij.com/montercancer](http://northshorelij.com/montercancer).
