## W.B. CARRELL MEMORIAL CLINIC

**F**or more than 80 years, W.B. Carrell Memorial Clinic has been a preeminent provider of orthopedic care to residents of Dallas and the nation. The doctors at the Carrell Clinic excel at treating patients with specialized needs and at sharing their expertise with the medical community.

**SPECIALTY PRACTICE** The surgeons and physician assistants of the Carrell Clinic offer a wide range of orthopedic subspecialties, including pediatric orthopedics, major joint replacement, and sports-related injuries, as well as disorders of the spine, shoulder, elbow, hip, knee, foot, and ankle. A group of Carrell Clinic doctors, headed by Dr. Cooper, are team physicians for the Dallas Cowboys. Dr. Baker is team physician for the SMU Mustangs.

**RICH HISTORY** Founded in 1920 by Dr. William B. Carrell, the first orthopedic surgeon in Dallas, the clinic initially focused on children's orthopedic surgery. "Our clinic is the second-oldest orthopedic clinic south of the Mason-Dixon line," notes Dr. Burkhead.

**EXPERT CARE** Ten of the doctors at the Carrell Clinic are included on the Super Doctors list, a testament to the high-quality patient care, expertise, and results that are the hallmarks of the clinic. Carrell

## A PROFESSIONAL TEAM OF EXPERTS

Clinic doctors regularly participate in clinical trials related to cutting-edge orthopedic developments. Drs. Krishnan and Burkhead head a nonprofit research foundation dedicated to the evaluation and treatment of shoulder and elbow disorders and the training of orthopedic surgeons in shoulder surgery.

**GROWTH ON THE HORIZON** Later this year, the doctors of the Carrell Clinic started providing their state-of-the-art medical care in a new facility at 9301 North Central Expressway, between Walnut Hill and Park Lane. The first phase building is a joint venture between the Carrell Clinic and The Cirrus Group. Cirrus develops and

manages medical facilities nationwide and has been invaluable in building a user-friendly facility for patients. The facility will house clinical operations, an extensive imaging center, physical therapy, an ambulatory surgery center, a pharmacy, and other physicians' offices as well.
