Exceptional Care Close to Home

MIDWEST PHYSICIANS IS PART OF HCA MIDWEST HEALTH System, Greater Kansas City's largest healthcare system and largest private employer. We represent 289 of the area's finest doctors, including more than 108 primary care physicians and 181 specialists. Midwest Physicians has 80 practices in 135 locations throughout the metro area. Our doctors serve patients at HCA Midwest hospitals including Centerpoint Medical Center, Lafayette Regional Health Center, Lee's Summit Medical Center, Menorah Medical Center, Overland Park Regional Medical Center, Research Belton Hospital, Research Psychiatric Center, and Research Medical Center.

We are proud that the 2012 *Super Doctors*[®] listing includes 49 doctors from our Midwest Physicians practices, many of whom have been honored multiple years.

Midwest Physicians primary care doctors are experienced internal and family medicine practitioners. Our family medicine doctors provide services for the entire family—from expectant moms and infants to children and teens to adults and seniors—with an eye toward ensuring the strong continuity of care that comes from having a true “family doctor.” Midwest Physicians internists have expertise that meets both routine and more complex needs. Many specialize in fields such as healthy aging, endocrinology, diabetes management, and others. Midwest Physicians surgeons range from general surgeons to those who offer surgical expertise in fields such as vascular surgery, cardiothoracic surgery, and others. Within their respective fields, they are adept at the very latest in minimally invasive and open surgical procedures.

Midwest Heart Care's specialists excel in cardiovascular treatments, from prevention and diagnosis to interventional procedures and surgery, and recovery. Midwest Cancer Care physicians are board-

SUPER DOCTORS[®] HONOREES
